## Viewing Windows

Enhanced Visual Experience

# INCREASED VISIBILITY WITH INCREASED PRODUCT MARKETABILITY

Open the door to Anthony and Contact us today!

The Anthony® 1950 and 1960 Series Viewing Windows are an essential component for creating a successful marketing environment where products need to be on display, but not touched. Stylish and sophisticated frame surfaces provide attractive displays that will draw attention and enhance interest in important products.

### 1950 Series

- Showcase product display within a cooler or freezer environment
- Windows for cooler application available in zero energy
- Manufactured to wall thickness

### 1960 Series

- Showcase product display within a cooler or freezer environment
- Windows for cooler application available in zero energy
- · Telescopic design can adjust to wall thickness

# VIEWING WINDOWS | Enhanced Visual Experience

Anthony's Viewing Windows are aluminum framed for attractive customer appeal and adaptability for a wide variety of wall openings\*. The Viewing Windows maximum net openings offer enhanced visual appeal with variable surface finishes and requires zero energy in cooler applications.

\*Net openings for all viewing windows must be precise to tolerance of -0 + 1/8". When ordering, specify overall thickness of installation wall.

### **Applications:**

- Walk-in Coolers and Freezers (i.e. Beer Caves or Food Prep Areas)
- Environmental or Test Chambers
