Easy Access and Energy Savings with Low-E Glass

Anthony's Slide Lids are specifically designed for island cases and come standard with curved glass, which increases product sales and product visibility. Vertical slide style reduces adjacent shopper interference and allow shoppers to easily select merchandise and maneuver throughout the store.

- 50% energy savings versus open cases
- More comfortable shopping experience by keeping cool air in frozen food island cases
- Consistent low temperature for frozen food
- Fits wide/narrow islands, centers/ends and single-deck wall cases of most major case manufacturers

Slide Lids

Contemporary Style with Energy Savings

Anthony's Slide Lids are available in nominal depths ranging from 40 to 80 inches. Featuring Low-E glass for increased energy savings, Anthony's Slide Lids provide for a more comfortable shopping experience, while keeping frozen food at a safe and consistent low temperature.

Slide Lid Handle
